

DEPARTMENT OF RESOURCES RECYCLING AND RECOVERY

801 K STREET, MS 19-01, SACRAMENTO, CALIFORNIA 95814 • (916) 322-4027 • WWW.CALRECYCLE.CA.GOV

July 14, 2011

To: All Prospective Contractors

RE: "ISO Critical Review for Used Oil Life Cycle Assessment Contract, DRR11023"

Addendum No. 1

To the Request for Proposal (RFP) Secondary Method DRR11023

1. The following questions were submitted in response to the RFP and answers to each follow the question.

Q1. Can CalRecycle review the project deliverables schedule as stated in Task descriptions in Section VI of the RFP, as summarized in the table given in the **Contract/Task Time Frame** subsection of that section? In particular:

Task 2b.i: The review of goal definition and overall project scoping is expected to be completed by October 2011, one month after the expected project start date. Is this realistic? The original RFP for this contract allowed four months for this effort.

Task 3b.i: The project scoping report is expected to be completed by October 2011, one month after the expected project start date. Again, is this realistic? The original RFP for this contract also allowed four months for this effort.

A1. CalRecycle believes the dates to be realistic, but is seeking proposers to offer detailed work plans, approaches, methods, etc. to meet our needs. The dates provided are tentative and may need to be adjusted based on a number of factors including but not limited to: actual execution date of the contract, rate of work completed by LCA Contractor, CalRecycle consultation with Critical Review Contractor, consultation with stakeholder group, etc.

2. Attached is a list of all businesses who have expressed an interest in the contract to date (Attachment 1).

All other terms, conditions, and requirements of this RFP will remain the same.

If you have any questions relating to this RFP process, please contact me by e-mail at contracts@calrecycle.ca.gov.

Sincerely,

{Original Signed By}

Shelly Lewis
Contract Analyst
